[From the Mining and Scientific Press.] A TRIP TO SURPRISE VALLEY.

FROM AN OCCASIONAL CORRESPONDENT.

MESSERS. EDITORS :- An account of this extensive and fertile valley, lying here for the past two years, and witamidst the sage brush and alkaline deserts of this Territory, may not prove uninteresting to your readers. You may therefore receive the annexed description as a faithful representation of that which really exists.

This valley lies immediately under or east of a spur of the Sierra, about 100 miles northwest of Humboldt, and 40 miles north of the Honey Lake road-a valley affording a natural road from Surprise to near Deep Hole Station. The Sierra or its spur, is clothed with the most luxuriant herbage to the snow line, while the entire range is densely timbered with the sugar pine, so excellent for lumber purposes, and with cedars adjacent to the valley itself. The numerous streams supplying the lakes are of considerable volume and velocity, and will afford ample perpetual power to the mills that must ere long, be erected to cut the timber of the mountains and convert the grain of the valleys into food. The soil is entirely free from alkaline deposits, being a rich alluvium, perfectly loose, and of considerable depth; while each year brings from the surrounding mountains a fresh supply of all the requisites to make up the pabulum of the various crops that can be produced. The temperature of this valley is much this Territory; its protected position and low altitude render it a most desirable agricultural, cereal root-producing locality, while the natural growth of a superior quality of grass is at present equal to three ton of hay to the acre. The soil is far superior to that of the Russian river bottoms. These are also the opinions of a farmer from that section, who visited and examined the soil of this valley. Besides the large streams that issue from the western range, numerous springs well-out from the foothills, so that each ranch has at hand ample means of irrigation where needed. The valley is well nigh surrounded by mountains, and is about 70 miles by 30, length and breadth, with a low narrow valley, affording, as before stated, at its south end an easily outlet to the highway between California and Humboldt, Humboldt County, N. T., Feb. 18, 1864 via Honey Lake. The increasing population of this country, the daily development of increased mineral wealth, the numerous towns springing up, and the great amount of travel on the Honey Lake road, must soon make farming and ones, too, we know, for they will be

country extensively,) can lumber be supplied so readily and cheaply. The consumption of this county of flour, horse feed, potatoes, beans, etc., etc., amounts monthly to many tons, and is steadily on the increase, all of which can be produced in this valley.

The Humboldt river bottom cannot begin to touch this valley in the yield of any one article, while the liability to overflow must render farming on the river uncertain The demand for the above articles will be very considerable on the Honey Lake road. It is by that route all this county receives its freight and from the improved character of the the Chico and Tehama roads, the travel in this direction will increase. More over, this coming season there will be a large amount of travel to the Boise and Northern mines, with every prospect of a steady communication, via the Humboldt river, to and from the American Posessions north.

When the great Pacific Railroad reechoes to the sound of the rolling car, then how immensely will the demand for produce be increased. Again, it will not be long ere the English will find that they too must lay their rail from Columbia, to unite most probably with the Pacific Railroad. Already contracts have been made by the English Government to carry the telegraphic wire across the continent, soon to be followed by the locomotive.

Let us look at another item. The Goose Creek mountains, on the Great Emigrant road, about 250 or 300 miles northeast from this, are known to be rich in mineral, and will most probably be prospected the ensuing spring; hence and increased population will be drawn hitherward, and every man and beast that comes into this county is so much custom and consequent profit to the grain and hay producer of Snrprise Valey. Some of your readers may think me visionary; but those who have lived nessed the growth of this section, must be convinced that this is no day dream, but that a very short period will more than realize the statements herein made.

The ranges which bound Surprise Vallev have been not prospected, but the indications warrants the belief that gold and silver will be found there. The ranges 30 miles east, and 50 miles south, towards Pyramid Lake, have several mining districts located on them, and will shortly be thronged with a busy people. Fairview District, where the Silver Wave and Vickburg ledges are located, is being opened even now, and soon we may expect that the new town site of Pyramid City will become something more than a name.

Many settlers are moving into this fertile valley, and ranches, mill sites and lumber claims are already pre-empted, so that by spring we may reasonably anticipate a goodly society of the wealth producers of a country. The farmer ranks foremost to the miner, though both reciprocate and develop the country. It is highly important that every encouragement and protection should be given to the settlers of this valley, for should ruthless war break out amongst the great nations of the earth, and the specks in the horrizon, though now " no higher than almost any other portion of bigger than a man's hand," grow rapidly and mightily, we on this coast might be suddenly cut off from the resources of the East, and left to shift as best we might. Here in this valley we can raise our own flax, hemp, tobacco, beef, mutton, wool, etc.; for the pasture lands are incomparably superior to any thing in California, and all the cereals fruits and edibles necessary to man's use can be produced in abundance None need fear droughts; the snow capped Sierra will always keep the streams well supplied.

Such is a brief view of this valley, so far as examined, destined to become the granary of this country. When I further survey this natural garden, if anything worthy of note occurs to me. I will communicate it. Fish and game are plentiful. H. O. G. S.

MATCHES. - Matches, the poets sav. are made in Heaven, but from signs we see around, we guess, this leap year, many will be made in Napa Valley. Happy the lumber trade in this region pursuits made by angels-without wings. Our of immense profit. From no other place devil says, "Go it gals, I'll hold your bonne s !"

Ur jumped the devil in a rage, and set nearer-indeed, I may speak positively up two lines to fill this page.

CORRESPONDENCE.

INDIAN VALLEY, M'CH 2d 1864. MR. EDITOR :- I have the pleasure to transmit to you the enclosed Constitution, Legislative Rules, and Message of the Governor of the new State of Buena Vista. [Documents received, but they are too lengthy for us to publish .- Ep. ] These papers were forwarded to my charge by Express, with instruction to dispatch with all haste to the Union Office, that you may have the proud privilege to first announce, that a new State is born to the Republic. This evidence of confidence in the integrity and continued existence of our Union, is truly refreshing in these times of attempted dismemberment, and of doubt in the power of the Government to maintain its life, and we should hail with peculiar delight, this proof of esteem for our institutions, by the inhabitants of this new Star in the Constellation, standing out, as it does in such bold relief, when contrasted with the late refusal of other portions of the "Territory," to accept of the glorious privilege of membership to our Confederacy of States.

MEN of Buena Vista, we extend to you the hand of fellowship, recognizing you as brothers, having faith that you will be true to your allegiance, and faithful in the discharge of that duty, which is now incumbent upon you, to protect, defend, and maintain our Union.

The time is approaching near, for the Presidential Campaign, and in view thereof, some feeling is manifesting itself. I rejoice to see such general expression of confidence of, and preference for, Mr. Lincoln, among Union men. He certainly is the man for the times; bold, fearless, honest and impartial; possessed of more of the attributes re- ber of soldiers and set them in the field quired by the emergencies of the day, Since the war began the Government has than any man living. At least I think issued over 2,000 siege guns ; 1,600,000 that of him. We know it, whilst of oth- fire arms for infantry; 330,000 fire arms ers. unpracticed and untried, we might and 275,000 sabres for cavalry; and has reasonably doubt. He certainly is no yet on hand, ready to be issued in emersectarian, no partisan, no demagogue; gency, arms enough for all service, to but in his plain, practical sense, measuring out justice to all sections, setting John Bright declare to his jealous counaside all political prejudices, and dealing trymen that the loval States of America justly, humanely, and magnanimously constitute the most powerful nation and with foe as with friend.

Conscious in the rectitude of his in-

tentions, and having a knowledge of the laws of his Country, and his relation thereto, he has had no hesitation in leaving his acts to the investigation and decisions of our Courts, with a recognition of their rights, and his obligations thereto. Executing the laws with full purpose to enforce obedience to their behests, he seeks no exemption from compliance with their commands. Requiring all men to be law abiding, he will abide the law himself. Uninfluenced by prejudice, he selects his agents and aids from all sections of the Country, and from among all classes of men. And destitute of passion, he will afford pardon and amnesty to all who may deserve it. He then is the man. If, then, the Union Element of the Country is true to itself, and true to the Country, his will be a triumph, such as the Country has never before witnessed. We have nothing to fear, except the petty jealousies of our leading men, who, in their avarice, and for personal aggrandizement, will influence schisms, divisions and unfriendly feeling in the ranks, and will bring defeat to our cause, and the prevention of the accomplishment of our aim and object. It is time then, that we begin to look around us. and seek the removal of all obstacles in our way. to silence all quarrelings and bickerings, to reconcile all differences, to become firm and true, strong and united, having but one object in view-the destruction of rebellion, and the preservation of the

QUINCY. SATURDAY, MARCH 12, 1864.

JUSTICE.

The Quincy Union contains an article urging harmony among the Union press; and being an old Breckinridger, like Ben Butler, and now very sound on the Union question, he feels himself in a position to lecture the press .- Marysville Appeal.

We go a heap on Ben Butler or "any other ment the first shot was fired on Sumter, but we don't go a cent on men who lingered with them don't go a cent on men who lingered with them after that. As for ''lectures'' to Union men, on harmony, etc., they would come with better grace and consistency from old stand-bys—from men of tried faith and undoubted principle—than from political weathercocks who voted for John R. McConnell in 1861. We don't care who likes the candor and bluntness of our expression, but we say emphatically that any man who remained with the pro-slavery, anti-war Democracy until late in 1861, or since then, is not to be trusted as a true Nationalist. He is not such a man as we would put into leadership, or even to stand guard over the country's honor. We wish all such men had remained out of the Union poster. the candor and bluntness of our expression, but such men had remained out of the Union party, because they are corrupt from the top of their heads to the sole of their feet, and their adhesion can only bring us injury. We had enough votes without theirs, and they only came to us because

The foregoing we clip from the Sierra Democrat and bears the undoubted stamp of its editor O'Sullivan.

While nearly every other Union paper in this State, has copied portions of the article, mentioned by the Appeal with commendations of praise at its spirit, the Democrat, is the only one that take the individual author to task. for his past political career, and insinuates as to our motives for present action.

It matters not, whether O'Sullivan loves us or hates-us, or holds us in contempt; that is a personal matter. If a blackguard calls us by an ill name, or if a liar slanders us, we pass it by, and show by our life the falsity of such charges but when the editor of a Union journal makes charges which go to our loyalty, it is our duty to set him right if he is wrong, and if he is actuated by motives other than base, he will gladly do us justice, and we hope our neighbor will,

knowledging his error. for Governor, and that we were acting ded in the Second Judicial District, and is not very large, so, as the big and litlate in 1861, and while acting with resentative and Senatorial representathem, found it the losing side and chang- tion. When received, we will publish ed for the sake of office.

We now ask Mr. O'Sullivan for his authority in making that charge, for had we acted with any political orgaization after the first blow was struck at the national flag at Sumter, which was anti-war, or that apologized for secession or called treason by any other name than treason, we should not be afraid to acknowledge it. We think we know who has, by deliberate falsehood, led him into error as to our course at that time, and can only blame him, (O'Sullivan) for being too credulous.

In April, 1861 as soon as the news came of the attack on Sumter, we took our stand where we now stand, for the maintainance of the laws of the United States, even if it cost untold millions of treasure, and the still more precious blood of loyal citizens. We used all the influence in our posession to thwart the schemes of the traitors on this coast, and (were we not crowded into it now in self-defense should not boast of the fact.) were one of the first movers in organizing the Union party of this

State.

We tell O'Sullivan that we voted in 1861 for John Conness for Governor, and had the news reached us that Stanford stood the best show of beating Mc-Connell, we should have voted and worked for him as cheerfully as we did for Conness, and the best evidence of the truth of the assertion is that we were a candidate on the Conness ticket for District Attorney in this county, and should have withdrawn when Cox was nominated, had not leading Republicans told us that they doubted Cox's loyalty, and should vote against him on personal ground, and begged me not to resign.

speak our sentiments plainly and bluntly. We done so in 1861, and for that reason have secured the hate of almost every Secessionist and Copperhead in this county, and as there are those in Downieville who have felt the truth which we urged, we can only charge our Union neighbor with being misled.

Copperheads ape Secessionists in their style of argument, and one of the main props of the Copperhead edifice is downright falsehood. When they cannot make a point by daylight lying, they use the midnight system, and if a person whom they fear is to be destroyed they mislead his friends, and so get the at-

tack to come from within the fold. As to the wish of the editor of the Democrat that we had remained out of at short notice, and upon reasonable terms for the Union party, it is only begotten of cash.

his information as to our record. We do not intend to leave the Union party. until the rebellion is crushed, no nor then, for after force has won the fight in the field, the greater danger of political trickery will appear, for leadership. We care not; we had rather be a door keeper in the Union Camp, than be the leader of the Copperhead forces, and we beg leave to differ with the the editor when he repels votes for the sake of the cause. Had the North been a unit, the war would have been ended a year since, and our only desire is to make the Union party invincible in the administra tion, in the field, and at the ballot box. Do us justice, O'Sullivan, and never again class us with the Copperheads after the first gun was fired.

#### THE CONTROVERSY AGAIN.

In last weeks Union, we stated that the controversy between Mr. Stille and Mr. Root was over. We were somewhat premature in our surmises. as our columns this week will prove. In justice to Mr. Buckbee, (who left for Honey Lake Valley on Tuesday,) we will say to all parties interested in, or in any way connected, that not one single line or word from the commencement of this controversy up to the present time, which has appeared in the editorial columns of this paper, was written by Mr. R. The letter written by Mr. Dunham was directed to Mr. Buckbee, as editor of this paper, and as soon as it was opened, he did hand it into the office. As certain parties are of the opinion, that all the letters published "have been corrected and fixed up" at the office, we shall hereafter publish them verbatum et literatum, et punctuatum.

and CHAPPELL. MR. CLARK said there was a general desire for this organization, and nobody dissented to it. It took from Shasta only a piece of uninhabited territory, while the people remaining in Plumas generally rejoiced at getting rid of their neighbors over the mountains. Plumas would still give a handsome Union majority at elections, and the new county more so. [Applause.] The Honey Lakers wanted to name their new county in honor of old Peter Lassen-whom '49ers might remember-and there was certainly no objection to that. He had been informed by letter that a petition of five hundred Honey Lakers was on the way to him, asking for the organization of the new county.

After a short discussion, a motion to refer the Bill to the Committee on Counties was rejected, and under suspension of the rules the Bill was considered engrossed, and passed.

THE following letter, accompanied the explanation which we published two weeks since. It was received the same day that our paper was published, therefore we did not have time to "set it up" subscriptions for the relief of the sick for that issue.

SACRAMENTO CORRESPONDENCE.

SACRAMENTO, March 7th, 1864. DEAR UNION :- San Francisco has the "horrors." A deed of blood has been done which makes the Frisco flesh creep and the very Bay to chatter. One Mary Smith, a courtesan, was found dead in her kitchen, with her throat cut. and everything showing a desperate struggle for life. She had some property and was to leave the next day for Austin, or Aurora, and had converted a good portion of her property into cash: out murder stopped her earthly journey. and sent her unprepared to the mysteries of the future state. Her body has been exposed at the dead-house in San Francisco, and as I was in town at the time. I took a look at the tenement where her spirit used to dwell, and felt as perhaps did many an other who saw her there, stark stiff and lifeless, that it was a bloody and a dismal ending of a misspent life.

Lassen County begins to breathe. The bill which was referred to the delegations from Plumas and Shasta, was reported back favorably, with some slight amendments of a verbal nature. and has passed the Assembly. It will doubtless pass the Senate this present week, as there is no opposition to it from any source, and if the Honey Lake boys can stand the expense. Brad is "villing."

A correspondent of the Pajaro Times, publishes a vile tirade of abuse against Thompson Campbell, and while acknowledging his brilliancy of intellect, accuses him of being a demagogue, and a' that, and that he is ambitious, with one eye on the U.S. Senatorship. Brad will stake a "chaw of tobacco" against a bit. that that correspondent, is an old '56 Repub., who is mad because Conness went to the Senate instead of Sargent. or that Shannon cut his swath to the House of Representatives, or because all the highest places in the synagogue were not reserved for the class, who, ike Shafter cry out, "I am holier than thon." Campbell is a trump card, and when he speaks says something, and if BRAIN will win, you can safely count on his coming out at the winning post

aliead on a canter. Brad thinks that if a man in this crisis s to be judged by his past career, and that all the honors are to be scored by one faction while the other takes all the tricks, it is a rule that if persisted in will burst up the game in a row,

The "Governor's Bell" is very likely to become a law, which is consoling to the Appeal. It still thunders away at the principle contained therein. Whenever Brad hears a continual thunder about principle it puts him in mind of Toodles, of funny memory. Says Toodles, "It's against my principal to pay interest, and it's against my interest to pay principal."

The early meeting of the State Convention causes the political pool to become slightually disturbed. The pool co, and made the same statement as leaves a cloudy appearance in the water. This cloudy show will increase until it is decided who is to control federal patronage on this coast during the ensuing Assembly Bill No. 308-An Act to four years, when good feeling will be recreate the county of Lassen, to define its stored and the ins will shake hands with boundaries and provide for its organiza- the outs in a remarkably friendly man-

> Sacramento at this time is a perfect paradise; nature needs no aid from art ng conserving flowers. The blossoms are just crimsoning into buds, roses perfume their scent of Cashmere; honeysuckles drape garden walks, jessamine shades sunny windows, and all the flora of the season in this clime are holding a flowery carnival, and for bridal tresses or funeral use, the garden showers its gifts on all. I wish I could send you dwellers in the snow belt a bouquet of roses with their fragrance concentrated. but that is a vain wish, for while Brad sits at his window inhaleing the baliny air of this bright spring morning, he can see in the blue range of the Sierras, the snow covered heights, which freezes up the roots of the delicate shrub.

Gov. Byers left us last week, and i he should take in Quincy in his route to the new State of Lassen, let not his

thirst go unquenched. There is a rumor in town that Kilpatrick has captured Richmond, but Brad

only thinks it the outgrowth of last weeks dispatches. BRAD.

Yours as ever.

AID FOR THE SOUTH .- The Appeal and Express are having a "set to," in regard to a Mrs. Rhodes who has been raising and wounded soldiers and prisoners of the Rebel army. If Mrs. Rhodes has MR. JOHN R. BUCKBEE, EDITOR OF QUIN- only collected subscriptions for the purpose above stated, it shows that she possesses a kind heart, and no matter how much we may condemn the cause which makes such a course necessary. no one can but admire her devotion. The following, is a closing extract from an article upon the subject, taken from

the Appeal: As to Mrs. Rhodes, as a missionary, we make no complaint. She is performing an act commendable in the eyes of her people, and one which we are sorry to say we cannot approve. If our heart was in the success of the rebellion, we could worship her devotion to the cause, and call her an angel. But war has no humanity, and closes the fountains of Christianity and Godlike hospitality.

A quantity of fresh garden seeds of the most choice varieties, recently received from the Agricultural Bureau connected with the Patent Office at Washington, will be distributed by the officers of the Mechanics' Institute among the earliest applicants .- Appeal. There is a chance for our farmers.

CORRESPONDENCE. Quincy, March 10th, 1864.

EDITOR QUINCY UNION :- Having prom-

On the 27th of August last, D. C. Stille was at Round Valley, acting as Assistant Federal Assessor. On that day he assessed me for a buggy upon which there was a tax of \$2. I asked Stille to whom I should pay the tax. He said he was authorized to collect. I paid him, and took his receipt. On or about Dec. 28th, Mr. Root demanded the same tax of me. I remoustrated, and stated what I had done, but he insisted that Stille had collected without proper authority. I finally paid him the same tax, taking his receipt also, and vowed there will be no further necessity for any more in the strongest terms to prosecute Stille. While we were yet talking, Stille rode up the street on his return from below. He had hardly alighted I can give you every assurance. when I accosted him, and demanded a return of the amount paid him. He stated that he had authority to collect, and to convince me requested me to accompany him to his office. I did so. He exhibited a package of receipts signed by Dunham and among them was one in my name for \$2, paid on buggy. Stille said when I gave up his receipt, he would give me Dunham's in return.

Being uncertain who was right. I resolved to write below. I wrote to J. R. Clark Collector of 4th District, giving a statement of the whole affair, and subsequently received an answer, stating that Root was the only authorized collector. In the interim, however, between my writing and the answer, I visited San Francisco. On my way I sought and made a statement to Mr. Dunham, at Oroville, of the affair. He stated that Stille had had authority to collect under him, and that he had made due return of my amount, and that Root had

collected wrongfully. I next called at J. R. Clark's office. Sacramento, but Mr. Clark was out, but another gentleman in the office whose name I did not know, stated that he was authorized to transact any business connected with the office. I made a statement of my case, and he said he had written to me on the subject, and showed me a copy of the letter in which the opinion was given that Mr. Root was the only authorized Collector, and that Stille had collected wrongfully. He commenced giving his opinion verbally, but suddeny wound up by saving that I had better make my statement to Mr. Thomas Brown, Special Agent of the Treasury Department, located at the Custom House, San Francisco, and gave me Mr Browns address. He said that a great many complaints had come from Plumas and that it was strange that Mr. Avery did not act in the matter.

I called on Mr. Brown at San Francis-Stille's proceeding was right and regular at the time he collected of me. Mr. Root I believe not having the appointment of Collector at the time.

The only thing I believe about, which there was any question was as to whether Dunham, being himself only Assistant Collector, had power to appoin' De puties under him. Upon that question was particular to ask Mr. Brown, and he gave as his opinion that Dunham had a right to appoint as many clerks or assistants as he wished, he of course being responsible for their conduct. Notwithstanding that there seems to be something palpably wrong in combining the two offices of Assessor and Collector in one man, Mr. Brown said there was

nothing in the law to prohibit it. My only excuse in writing the above or mingling in any way in the affair, as the fulfillment of a promise made before my investigation.

In this I have confined myself to my own affair, as I did in my investigations, not attending to any other matter of Stille's unless incidentally, and not asking an opinion on anything except what J. J. L. PEEL. concerned me.

EUROPEAN advices to February 21st have been received. On the 18th the Allies were repulsed by the Danes at had entered Jutland, or Denmark prop- time, and I have no wish to break our er. It is supposed that French policy is inclining in favor of Denmark. The Paris journals contain warnings to Prussia.

I see by the last Union, that they are glad the controversy carried on in that paper is ended; I suppose they come to he conclusion, from the fact that J. S. Root did not answer my last card. I have not said that it was ended. I do not end matters of this kind quite so easy. Here is a copy of a letter written to J S. Root, by E. Dunham which I wish to see published; it was received by Root previous to the one received by John R. Janesville and Millville. Buckbee, which was published in the Union of Feb., 27th under the head of Explanation Now what I want to know s this, why did not Mr. Root have this letter published instead of the one which J. R. Buckbee received on the day before the issue of the Union? I saw Buckbee when he got that letter out of the Office, and rush to the Printing Office with it, and I know more, I know that Root had received the original of this letter some days previous. Yours, Truly, E. DUNHAM.

[Exact copy of a letter to John S. Root, Feb 19th, 1864.]

OROVILLE, Feb. 19th, 1864. MR. JOHN S. Root .- Dear Sir : - - Inclosed please find a list of collections of the Federal tax in Plumas county. In the collection of the Federal tax in Plumas county, I took as I thought the most economical course to collect the money with the least troubleto myself, as well as to the tax paying public. I therefore requested Mr. D. C. Stille, the Ass't. Ass'r. to collect the monthly returns. I also gave him some Licenses to collect, and also requested him to collect the Licenses when he came across them of Pedlars. I have never assumed the right to appoint a Deputy Collector, or auything of the kind, but I have a right to request any person I see fit to receive money for me in either a public or private capacitv. Mr. Stille in collecting the money gave his receipt to persons wishing to pay their taxes and when I came to Quincy, he money, I would my receipt for the same, and give to take up his receipt. I have every reason believe that Mr. Stille paid me the money he collected honestly and honorably. I send the inclosed list so that you can see who has paid up to the 1st of Octobor. The money Mr. Stille collected after I was in Quincy, up to the time of your appointment as Deputy Collector, I instructed him to pay over to you, as I had nothing further to do with the money collected in Plumas County. I understand that Mr. Stille tendered you the payment of the money, and you refused to receive it from him, denying his right to collect any money. I certainly think it would have been better had you received the money from Mr. Stille and gave him receipts for the parties who paid it. You could then have informed Mr. Stille f you saw fit, that as you was appointed collector of that county, you would collect the money yourself. I understand that you have collected money from Peel Hosselkus, Harvey, Purdom and Breed. You will find by referring to the inclosed list that those parties had previously paid those taxes while I was Deputy Collector, and my receipts were drawn in favor of the parties who paid the money. The money thus collected was paid over by the first of October, 1863, to the Collector, Mr. J. R. Clark of Sacramento. You will therefore see that you have collected money you had no right to collect, and are individually liable to those persons for the amounts you collected from them. would most respectfully advise you to pay the money back to Mr. Peel, Hosselkus, Harvey, Purdom and Breed, as you will find by referring to the within list that I collected the money and lawfully while I was Collector of Plumas County. I think after a full and fair explanation of facts it will be seen that there has been no intention on the part of any one to defraud the Government, and had a little cooler council prevailed, it would have saved a good deal of trouble and hard words My object is addressing you is to explain, but not to be drawn into any controversy with either

As I have reserved a copy of this letter you can make any use of it you see fit. Yours very Respectfully

Now in conclusion I have only this to say: For Root (the Imbecile) I have not even a word, but for his fides Achates I have this to say. I understand (and from good authority.) that this champion of Root's has not only threatened to blow my brains out, but said if I said any more about this matter, he would come out with a personal card against me. Now let us see him come. I am his man. If he wishes to attack me with physical force, I walk the streets every day, he can find me at any time. If with mental force, I am at his service, and I want him to distinctly understand that ! neither love nor fear him, and what is more he had better remember that threats like chickens come home to roost, and if he is is not careful he will have a henhouse full of them. I can trace his proceedings as far back as fifty-one and two, and let this very refined gentleman remember also that I have but one friend in this matter, and that is TRUTH. Truth Duppel. Another column of Germans and myself have been friends for a long

ROAD .- A bill is before the Legislature, authorizing Sierra county to appropriate \$20,000 toward the building of the Beckworth Pass Turnpike, provided the citizens of Sierra county are willing to issue bonds for that amount for the undertaking.

COUNTY COURT .- The Court met at the Court Room on Monday last; Hon. A. P. Moore, Judge. The case of Smith, Administrator, vs Carmon, continued to the next Term. The case of Taylor vs Springer, dismissed at Plaintiff's cost. The ease of the People vs Clark, continued for the term. Court adjourned till Court in course.

FALSE. - We have noticed a paragraph going the rounds of the papers to the effect that several of the farmers of Honey Lake Valley had left their ranches, and did not intend to cultivate them during the present season, owing to the drouth. But we are informed by citizens of that section of our county, that such is not the case.

NORTH FORK .- Tom Orton & Co., have completed their bed rock tunnel, which "taps the basin" in the hill above the mouth of Musquito creek, and the indications are good that they have struck a "rich thing." Several other companies are at work near them, running tunnels into the same hill. We wish them luck, and lots of it.

CLOTHING .- The stock of Messis, Kaulback and Aschheim & Co., has been considerably reduced during the past few days, and we notice that several of our citizens have come out in "bran new" suits. Reason: Their old ones got slightly ruptured in the "grand ceremony of inauguration," on Monday last. "It ish mooch betther as good." Yaw?

RIVER MINING .- From all portions of our coun ty, we hear that there will be more claims opened and worked in the rivers and bars, than have been for several years past, owing to the low state of water, &c. And doubtless more money will be taken from the mines the coming season, than there has been during the past ten years. The scarcity of water will be somewhat of a set back to the owners of hill diggings. But there is plenty of time yet for rain and snow, sufficient for them to " wash up " their drift dirt.

INAUGURATION .- On Monday last, the new officers took their stations. Five baskets of champague were brought out and made way with in the usual manner. Wine flowed free, and every one in the large crowd, with hardly an exception, felt as "happy as a King," "or any other man.' All seemed bent upon having a good time. Few of them "fell in the action;" but there were a number of "cases" of real pain, circulating around the next day; also remnants of coats, pants, vests, etc., the owners of which, would not come forward and claim property and take it away, but went to the stores and bought new ones instead.

DEATH OF REV THOS. STARR KING .- The telegraph to-day brings us intelligence from San Francisco that will carry sorrow to the hearts of thousands throughout the State. It informs that the Rev. Thos. Starr King is dead. He died this morning from the effect of a severe attack of diptheria, from which he has sufferered severely during the past few days. California could have better spared another man. As a lecturer and orator he possesses no equal, and to his quali ties in these respects, and the energetic use of his talents, is the State greatly indebted for the sound and unfaltering Union sentiment that now pervades it. As a husband, father, pastor and citizen, his record below is a good one, and though many may follow his example, we know of none who can fill his place.

MAKE HOME BRIGHT AND PLEASANT.

More than building showy mansions, More than dress and fine array, More than domes or lofty steeples, More than station, power and sway— Make your home both neat and tasteful, Bright and pleasant, always fair, Where each heart shall rest contented, Grateful for each beauty there

More than lofty swelling titles, More than fashion's luring glare, More than Mammon's gilded honors, More than thoughts can well compar-See that home is made attractive By surroundings pure and bright; Trees, arranged with taste and order,

Flowers, with all their sweet delight. Seek to make your home most lovely-Let it be a smiling spot,

Where, in sweet contentment resting,

Care and sorrow are forgot.

Where the flowers and trees are waying, Birds will sing their sweetest song; Where the purest thoughts will linger, Confidence and love belong.

There, each heart will rest contented, Seldom wishing for to roam, Or, if roaming, still will cherish Mem'ries of that pleasant home Such a home makes man the better; Pure and lasting its control; Home, with pure and bright surroundings, Leaves its impress on the soul.

Precoctous.—There is a person in this city who enjoys to-day his eighth birthday, yet is married and has several children. He is a fine mathematician, can solve you any problem in Davie's Algebra, is an excellent linguist, reads Latin Greek and Hebrew, and is not unfamilliar with the modern languages. He writes a pleasant address, and even sermons that he turns off have been pronounced excellent. Curious as this case may seem it is literally true. We do not claim it as an evidence of the wonderful character of our climate, for the person referred to had his seventh birth day before coming to California.-Bulletin. An eccentric preacher, seeing a fly light upon his Bible, improved the occasion as follows:

"Ye goodless sinners, ye shall all be damned, every one of you, as sure as I shall catch that fly " Here he made a full swoop with his hand, and thought he F. J. Hanlon, Proprietor. had caught it; opening each finger slowly till the last, he found it was not there and said: "By hookey, I've missed it ! There's a chance for ye sinful ragmuffins yet."

GREAT NEWS FOR THE TOPERS .- Whisky and hrandy can now be made out of coal gas, which consists of carbon and hydrogen, as does alcohol, with the addition of oxygen. For several years past the process of converting olefiant gas into spirit has been talked of, but now a French patent has been obtained for the purpose and sold to a company in London. You take away one-half the hodrogen, add a little oxygen, and presto! you have a bottle of brandy.

A FAT TAKE.—It is reported that a journeyman printer, employed on a daily newspaper in this city, has just received information that a legacy of \$7,500 is awaiting his acceptance on the other side of the water, and that there is more of the same sort in store for the same individual. Printers generally would term that sum " a fat take."-Boston Journal.

Miss will you take my arm? Or young lady, will you condescend so far to sacrifice your own convenience to my pleasure as to insert the five digitals and a part of the extremity of your contiguous arm through the angular aperture formed by the crook of my elbow, and the placing of my hand near the side pocket of this oversoat?

A SHORT NOVEL .- Sweet Margaret Fanc came up the lane from picking the red berries, and met young Paul, comely and tall, going to market with cherries. Stopping she blushed, and he looked flushed-perhaps 'twas the burden they carried; when they passed on, their burdens were one, and at New Year's they were married and and a second

# To the Afflicted.

To the Afflicted.

DR. L. J. CZAPKAY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to be co. suited at his Institute for the cure of all forms of Private Diseases—such as "yphilis. Gonorrhoea nocturnal emissions, and all the consequences of self, abure. In the first stages of syphilitor of Gonorrhoeal Diseases—he guarantees a cure in a few days, without inconvenience to the patient or hindrance to his business. When a patient by neglect or improper treatment, has developed the secondary symptoms of syphilis, such as buboes or painful swellings on the groins, or ulcers in the throat or nose, which if not checked destroy the soft parts and cause the bones to mortify, separate and come away, leaving the sufferer an object hideous to behold, or when blotches and pimples break out on the skin, or when he has painful swellings on the bones, or when his constitution is injured so as to predispose to consumption or other constitutional disease, the decter guarantees a cure or asks no compensation.

In rheumatism, chronic or acute, dysentery or diarrhoea, he has safe and effectual remedies: For the treatment of the consequences of self abuse, such as nocturnal emissions, nervousness, timidity, headache, pains in the back and limbs, with general weakness, loss of memory, injury to the sight, restlessness, confusion of ideas, dislike for society, and a feeling of weariness of life; with the nervous system so excitable that slight noises shock or startle the patient, making existence miserable.

For the above maladies the doctor will guarantee a cure, or ask no compensation. He can be consulted free of charge, and invites all to call as it will cost them nothing, and may be much to their advantage. Office hours, from 9 a. M. to to 9 P. M.

Remarkable Instance of Medical Relief.

Certificate.—The undersigned desirous of acquainting those who may be unfortunate enough to be similarly afflicted, where a permanent relief of their sufferings may be obtained, feels it his duty to thus publicly express his most sincere gratitude to Dr. L. J. Czapkay, for the permanent recovery of his health. Borne down by the distressing symptoms incident to the vicous practices of uncontrollable passion in youth depressed in body and mind, unable to perform even the most trifling duty imposed upon the ordinary avocations of life. I sought the advice of many physicians, who at first regarded my disease as of \*rifling importance—but alias? after a few weeks and in several instances months of their treatment. I found to my unutterable horror that instead of relief, my symptoms became more alarming in their tortore, and being told by one that my disease being principally confined to the brain, medicine would be of little consequence. I despaired of ever regaining my health, strength and energy; and as a last resort and with but a faint hope called upon Dr. Czapkay, who after examining my case prescribed some medicine which almost instantly relieved me of the dull pain and dizziness in my head. Encouraged by the result, I resolved to place myself under his care, and by strict obedience to all his directions and advice my head became clear, and my ideas collected, the constant pain in my back and groins, the weakness of my limbs, the nervous reaction of my whole body on the slightest alarm or excitement, the misanthropy and evil forbodings, the self distrust and want of confidence in others the incapability to study, and want of resolution, the frightful exciting and at times pleasurable dreams at night, followed by involuntary discharges, have all disappeared, and in fact, in two months after having consulted the doctor, I felt as if inspired by a new life—that life which but a short time ago I contemplated to end by my own hand. To guard the unfortunate from falling into t Remarkable Instance of Medical Relief.

State of California, County of San Francisco: Subscribed and sworn to before me, this seventeenth day of April, A. D. 1856. Signed: JOHN MIDDLETON, Notary Public. [L. 8-]

Dr. L. J. Czapkay is daily receiving applications from Territory for the treatment of every form of disease, and there is not one who will come forward and express dissatisfaction; on the contrary, the Doctor is in daily receipt of letters expressive of gratitude and thankfulness, some of which are published below by permission.

Dr. L. J Czapkay, San Francisco: Sir-I have used the last of your medicine, and do not think I shall need any more as I feel very well, except that I have not entirely got my strength yet, but soon will with the appetite that I have. It is just three weeks you may recollect, since I called at your institute, with my constitution as I thought entirely broken, and never thought that you would be able to cure me perfectly, but thought you might be able to do something to ease the pain in my back and head and strengthen my limbs, which were so weak that they would almost give way under me when I walked, and to strengthen my nerves so that I would not get excited and tremble at everything. Now that you know what I expected you may judge of my satisfaction at my complete recovery from these symptoms, and the removal of those blotches and sores from my skin, and ulcers from my throat, and the entire stoppage of those emissions, which you said were principally the cause of my sickness.

I can hardly tell you which is the greatest, my joy or my surpri-e, for except not having fully got my strength, I feel as well as any man can feel.

Enclosed I send you twenty dollars over your charge, and think myself cheaply cured. If you think anybody will be benefitted, you may put this letter in the news papers.—
Believe me gratefully yours,

Stockton, May 24. 1855.

Dear Six—Having entirely recovered from my sickness. I avail myself of this opportunity to return my acknowledgements for the relief that you have given me. When I think of the distressing bodily weakness under which I have suffered and the nervousness, headache, fearfulness, want of confidence, dizziness, restlessness, weakness in the limbs loss of memory, confusion of ideas, dislike for society, nocturnal emissions, which made my life miserable. I can hardly express my gratitude for my existence had, become a burden togue, and nothing afforded me the least satisfaction—Knowing that there are many afflicted as I have been you have my permission to make use of this letter a as you think proper. Believe me gratefully yours,

To Dr. L. J. Czapkay, San Francisco.

SACRAMENTO, May 15, 1805.

Dear Sir—Such is the thankfulness that I feel for the preservation of my health of body and mind, and I believe of my life, that I hope I will not be considered intrusive in tendering my thankful acknowledgements for restoring my health and making my life a boon worth preserving when it had become a burden too great for me to bear. Victim as I was to vice that had undermined my constitution, and developed a train of nervous symptoms, such as nervous debility, headache, distressing timidity, self distrust, love of solitude, loss of memory and want of resolution, besides a loss of strength and energy, which had made my waking moments wretched and my siepe unrefreshing and was fast bringing me to the grave, but thanks to your skill I am restored to health, vigor and energy. Hoping to guide others where they may find relief, you have my permission to make this public. Gratefully yours,

To Dr. L. J. Czapkay, San Francisco.
